## Summary

---

Full Stack MERN Developer passionate about solving real-world problems through scalable and high-performance web applications. Experienced in building end-to-end solutions using React.js, Node.js, Express.js, and MongoDB. Actively participates in hackathons and enjoys working in fast-paced, collaborative environments.

## Skills

---

**Frontend:** React.js, Zustand, TanStack Query, Yup, CSS, HTML

**Backend:** Node.js, Express.js, REST APIs, Authentication, Rate Limiting

**Database:** MongoDB

**UI/UX:** Figma, Canva

**Tools:** Git, GitHub, Cloudinary, Brevo, Google Apps Script, AppSheet

**Languages:** JavaScript, C++

## Projects

---

### Hansraj Connect – Society Management Platform

*React.js, Node.js, Express.js, MongoDB, Zustand, TanStack Query, Yup, Cloudinary, Brevo*

- Built a full-stack web application for managing college societies and events.
- Developed modular React components and implemented global state management using Zustand.
- Designed RESTful APIs for authentication, event creation, and registrations.
- Integrated Cloudinary for image storage and Brevo for automated email notifications.
- Optimized backend using rate limiting and validations to support 10,000+ users.
- Currently in deployment phase.

## Experience

---

### System Design & Automation Intern — R Square Consulting

May 2025 – Present

- Developed multiple web-based automation dashboard using Google Apps Script and JavaScript.
- Automated internal workflows for data entry, processing, and report generation.
- Improved UI/UX for faster and more efficient user interaction.

## Education

---

### B.Sc. (Hons) Computer Science

Hansraj College, University of Delhi

Aug 2024 – Present

### Class XII (CBSE)

Jawahar Navodaya Vidyalaya

2024

## Achievements

---

- Winner – Smart India Hackathon (SIH) 2025 Internal Round, Hansraj College
- Winner – Code Fusion 2.0 Hackathon, Chandigarh University
- Top 120 Teams – Smart Delhi Ideathon 2025
- Second Place – National Science Day, Hansraj College
